12th Annual
Homeland Defense and Security Education Summit

October 30 – November 01, 2019
Monterey Conference Center
Monterey, California

The Naval Postgraduate School Center for Homeland Defense and Security, in partnership with the Department of Homeland Security and FEMA National Preparedness Directorate, is pleased to announce the 12th Annual Homeland Defense and Security Education Summit. The theme for 2019:

Public Interest Security: Leveraging Education to Connect Policy and Operations with American Perspectives of Homeland Security

The research presentation tracks include two broad areas:

• Border Issues – including the intersection of security, immigration, and trade/travel
• Technology and Influence Operations – including information/disinformation in public communication

Additional sub-themes to complement the presentation tracks may include:

• New/evolving threats to homeland security;
• Protection of critical infrastructure in physical and cyber realms;
• Intelligence policy and practice;
• Emergency preparedness, response, and recovery; and,
• New approaches in homeland security education.

The summit serves to bring together academic, practitioner, government and private sector communities to discuss key issues facing local, state and national homeland security, homeland defense and emergency management.

For additional information and to register for the event, visit: https://www.uapi.us/programs/2077
