CALL FOR PROPOSALS

13th Annual Homeland Defense and Security Education Summit

November 02-04, 2020
Monterey, California

The Naval Postgraduate School Center for Homeland Defense and Security, in partnership with the Department of Homeland Security and FEMA National Preparedness Directorate, is pleased to announce the 13th Annual Homeland Defense and Security Education Summit. The theme for 2020 is:

Leading and Educating in a Multi-Threat, Multi-Hazard Environment:
What Homeland Security Leaders Need to Know

The research presentation tracks focus on two broad areas:

- **Intersection of Public Health, Safety, and Security** – managing long-term response while preventing, preparing, and recovering
- **Homeland Security Influencers** – including crisis communication, technology manipulation, information/disinformation in public communication, and HS/EM in a virtual/remote environment.

Additional sub-themes to complement the presentation tracks include:

- New/evolving threats to homeland security;
- Re-orienting Intelligence to current/projected threats;
- Infrastructure protection and Risk Management;
- Prevention, preparedness, response, and recovery in a multi-hazard environment;
- Emerging technologies shaping safety and security; and,
- New approaches in homeland security education delivery methodologies and content.

We invite all relevant research from related fields of study including international security, conflict, propaganda, psychology of fear, identity politics, human rights, regional politics (e.g., Canada, Central America), migration, and citizenship studies. We also specifically welcome papers in areas such as risk communication and social network analysis. Proposals must be submitted for consideration by September 11, 2020 and should include a 150-250 word abstract using the attached template and a CV or resume. Selectees must submit a complete draft of their presentations by October 16, 2020.

Please submit proposals with a designated track preference and any questions to Steve Recca, University & Agency Partnership program Director (sprecca@nps.edu). For more information regarding the summit, visit https://www.uapi.us/programs/2077.
